**SGXL**

## INDUSTRY-LEADING CAPACITY AND VERSATILITY ON A MULTIFUNCTION APPLICATOR

The SGXL is a 120-gallon zero-turn stand-on sprayer featuring a 14-foot, three-section, rear-mounted breakaway boom with electric hydraulic lift actuators that provide superior visibility to allow operators to monitor every nozzle's performance. Other standard features include a 100-foot hose reel, 2.5-gallon foam marker, patent-pending hillside stability assist system, pressure control system, and LED light bar.

Its size and versatility make the SGXL the perfect solution for many golf courses, sports fields, and commercial properties. With a 9 mph transport speed and a higher pump output of 40 gallons per minute, the SGXL saves time at a time when efficiency is everything.

**OPTI-RATE**

Built for ease of use and efficiency, it helps you reduce waste, spray at variable speeds, and get more done without the guesswork.

Optional SGXL Granular Attachment Kit includes a 350-pound hopper and lift system to convert the SGXL to a high-capacity spreader.
