

SGXL with Granular Attachment Kit

Convert your SGXL into a high-capacity spreader with the SGXL Granular Attachment Kit. Featuring a 350-pound capacity stainless steel hopper and the ability to carry 500 pounds of product in the stainless steel side trays, the SGXL can be modified to hold a total unit capacity of 850 pounds.

Included with the attachment kit is a lift system that allows you to disconnect your spray system and drive the chassis under the granular system for changeover via quick-connect couplers and a few mounting points.

The stainless steel hopper is capable of spreading 25' wide via its hydraulic power spinner motor and includes a new and improved pattern adjust system and multi-hole hopper opening. The electric vibrator improves the flow of granular products in the hopper.

SPECIFICATIONS

Hopper Capacity: 350 lbs.
Fertilizer Tray Capacity: 500 lbs.
Variable Spread Width: Up to 25'
Fuel Capacity: 8 gal.
Transport Speed: Up to 12 mph

FEATURES

Stainless Steel Hopper
