

Steel Green Manufacturing now offers its SGXL as an all-granular spreader. The SGXL All-Granular features a 350-pound capacity stainless steel hopper and the ability to carry up to 500 pounds of additional product in the stainless steel side trays.

The stainless steel hopper, with its hydraulic power spinner motor, can spread up to 25' wide. Highlights include a new and improved pattern adjust system and multi-hole hopper opening, along with an electric vibrator to improve the flow of granular products in the hopper.

The SGXL All-Granular is a dedicated granular machine. For liquid applications, consider the SGXL, which can be converted to a high-capacity spreader with the SGXL Granular Attachment Kit.

SPECIFICATIONS

Hopper Capacity: 350 lbs.
Fertilizer Tray Capacity: 500 lbs.
Variable Spread Width: Up to 25'
Fuel Capacity: 8 gal.
